### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with *Joe Calhoun* on *08 June 2005*.

The application has been amended as follows:

In the claims:

In claim 16, line 4, --while standing on a substratum affixed atop the ground surface-- has been inserted after "foot" and before the ",".

In claim 16, line 11, "a" has been changed to --said-- before "substratum".

In claim 16, line 12, "affixed atop the ground surface," has been deleted before "and".

NOTE: The above changes have been made to overcome informalities, in order to put this application in condition for allowance.

2. The following is an examiner's statement of reasons for allowance: Claims 1-15 are allowable over the prior art of record, because the prior art does not show or suggest the combination of a stirrup sized for capturing a lower portion of a baseball batter's foremost ambulatory appendage; an elastomeric tethering strap comprising an end attached to the stirrup and an anchoring end connected to a substratum by means for releasably anchoring the tethering strap to the substratum affixed atop the ground surface; the elastomericity including biasing favoring the return of the strap to its original shorter length and providing elastomeric constraint

Art Unit: 3711

essentially equally in all directions during elastomeric lengthening of the strap, the elastomeric constraint being insufficient to prevent the batter's foot from leaving the substratum, the releasable anchoring means releasing when said elastomeric constraint constitutes substantial destabilizing hindrance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
